

CONNECT TO INTERNATIONAL
LOCATIONS WITHOUT
SUBSCRIBING TO ISD

INTERNATIONAL BRIDGING SERVICE

Businesses with international operations need efficient ways of communicating across boundaries. Individual ISD connections on all devices lead to considerable increase in costs and limited control. In such cases, International Bridging Service is the right choice, since it provides centralized bridging facilities at reduced costs.

Making Communication and Business Easy

International Bridging Service (IBS) provides bridging facility to organisations so that they can connect to any international location or conference bridges. Our IBS service gives you the flexibility of getting your employees connected to international destinations without having ISD facility on their phones. It provides a centralized bridge facility for all your conferencing needs in a cost-effective and flexible manner.

IBS Network Architecture

INTERNATIONAL BRIDGING SERVICE

Business Advantages

- Reduce cost by eliminating need of ISD facility on individual connections
- Reduce individual dependencies with direct billing facility
- Control misuse of company assets

Features

- Three levels of authentication in the IVR - White-list / Account ID / PIN ensure validity of the user and minimizes misuse
- Features built around convenience allow you to take calls from any location, anytime
- Carrier grade services with 24x7 support ensures negligible downtime
